How to Become a My Distinctive Memories Affiliate

We have the tools you will need to start realizing results right away. Whether you are a traditional brick and mortar business or an online only business, once you become an affiliate you can start selling our service to your prospective customers. When you sign-up you will receive a unique Affiliate ID, this ID will identify your account when you send us a referral. Be sure to include your ID on all of your marketing materials and in any referral website links.

We will provide you with a link to our website that includes your unique Affiliate ID. Each of your referrals will be welcomed to our service by a personalized message from you and your company when they click on that link to a **My Distinctive Memories** homepage. When your referral arrives at our website, a cookie will be established on their computer that will allow you to track their free trials, click- through's and sales through your affiliate account.

Realize Results Right Away

There is no free trial period offered to the customer like most wedding website digital products, therefore, you will get paid sooner according to the Tier that you sign up under. When your customer actually purchases a website, you will be credited with the sale and you will receive your commission (after your account receives at least three referral sales).

Affiliate Support

We offer several marketing tools that include on line training videos that assist you in setting up your account and planning you strategy, banner ads, html e-mail ads, downloadable flyers, articles, and more that will help you sell to your customers. Your success is our success. We offer a 12-month cookie. You will be credited for a referral even if your customers decide not to purchase a product right away – as long as they return to our website within a 12-month period you will receive a commission / credit for that referral.

We pride ourselves on providing solid and reliable support to our customers and affiliates. You will have access to your reports 24 hours a day, 7 days a week. The reports you will see are in real time. Therefore, when we see a sale, so will you.
